Sulaiman Albalawi

Cybersecurity Specialist

**Riyadh, Saudi Arabia | +966 54 224 3239 | sulaiman.alar@gmail.com |
linkedin.com/in/sulaimanalbalawi/ |Portfolio: sulaiman-albalawi.com**

Cybersecurity Specialist with experience in incident response, malware analysis, and cybersecurity architecture. Currently contributing to a major government digital transformation project at EjadTech, Updated and tested security response plans and aligning cybersecurity controls with enterprise architecture. Proficient in security tools and automation, with a passion for building secure systems and enhancing organizational resilience.

EDUCATION

Bachelor of Computer Science (Cyber Security) (Honours)   Jan 2021 - Jul 2024

College of Computing and informatics – Universiti Tenaga Nasional (UNITEN)   Selangor, Malaysia

Relevant Coursework: Network Security, Malware Analysis, Risk Management, Computer Forensics, Ethical Hacking.

EXPERIENCE

Cybersecurity Specialist | EjadTech   Jan 2025 – Present

Digital Transformation Project   Riyadh, Saudi Arabia

- **Updated** and tested the organization's Cybersecurity **Incident Response Plan** to enhance operational readiness.
- **Contributed** to the digital transformation of a government entity by aligning **cybersecurity architecture** with compliance frameworks and enterprise systems.
- **Involved** in business continuity planning, risk mitigation, and security documentation.

Co-founder & CTO | LaundryMot Co. (Side Project)   Sep 2024 – Present

- **Selected** for **Misk Launchpad 7.0**, where we enhanced our tech-driven laundry model, emphasizing convenience and quality through smart lockers and a seamless subscription system.
- **Leading technical** planning and feature design in collaboration with the CEO and COO, ensuring secure user flows, QR integration, and scalable system architecture.

QA Automation Intern | Fresh Futures Sdn Bhd   Jun 2023 – Sep 2023

Summer Training   Melbourne, Australia

- **Created** automated testing scripts using **JavaScript** and **Cypress, reducing** manual QA time by over **60%**.
- **Integrated Mailosaur** for email verification **workflows, improving** test coverage and accuracy.
- **Supported** the QA team in **identifying** bugs and **improving** software **reliability** for a **major project**.

Cybersecurity Incident Response (Virtual Work Experience) | STC   Sep 2023

MISK Foundation   Remote – Saudi Arabia

- **Used Splunk** to investigate and respond to simulated cyber incidents.
- **Practiced SIEM** operations including log analysis, threat detection, and alert management.

PROJECT

Windows-Based Malware Scanner | Cybersecurity Capstone Project   Mar 2024 – Jun 2024

- **Designed** and **implemented** a desktop **malware scanner** using both **signature-based** and **heuristic** detection techniques.
- **Integrated** open-source tools such as **Yara, ClamAV and VirusTotal API** to **scan** and **analyze files** for **malicious** behavior.
- **Developed** a **user-friendly** Windows interface in **C#,** allowing users to log, view, and interpret **scan results**.
- **Tools & Technologies:** C#, Visual Studio, ClamAV, VirusTotal API, Yara, Virtual Machine, Windows Forms, .NET Framework, JSON.

CERTIFICATION & COURSES

CCNA: Introduction to Networks | Cisco   Mar 2022

Graduate Technologist – Cybersecurity | Malaysia Board of Technologists **(MBOT)**   Sep 2024

IBM Cybersecurity Foundations | IBM SkillsBuild   Oct 2024 – Dec 2024

Introduction to Cybersecurity | Cisco | 30 Hours   Feb 2024

Security+ | CompTIA (in progress)

ADDITIONAL INFORMATION

- **Technical Skills:**
  - **Security & Operations:** Incident Response | Threat Detection | Malware Analysis | Vulnerability Assessment | Security Policy Implementation | SIEM Monitoring.
  - **Tools & Technologies:** Splunk | Burp Suite | Mailosaur | Wireshark | Nmap | Metasploit | Git.
  - **Programming & Scripting Languages:** Python | C | C++ | C# | Java | JavaScript | SQL | Bash | HTML/CSS | PHP.
  - **Automation & Testing:** Cypress | QA Automation | Test Suite Development | Visual Studio | PowerShell.
  - **Platforms & Environments:** Windows | Linux (Ubuntu, Kali) | .NET Framework | Windows Forms.

- **Soft Skills:** Problem Solving | Analytical Thinking | Communication | Attention to Detail | Critical Thinking | Teamwork | Adaptability | Initiative

- **Languages:** Arabic (Native) | English (Fluent)
